An International Management System ISO 9001:2008 approved company and International Quality Management System CE approved Company.

About Us

Established in the year **1980**, we, “**Renu Electricals**”, we are among the venerated **Wholesale Trader of Industrial Blower, Vacuum Blower, Industrial Motors and Turbine Blower and many more**. These products are well-appreciated in the industry for their high performance, durability, efficiency and long service life. Our range is manufactured as per the IS and international guidelines. The range is widely used for various engineering purposes in different industries. Further, this range is also supplied to numerous government and semi government departments.

Our robust and cutting-edge infrastructure is established in Mumbai, Maharashtra (India). This facility is outfitted with necessary amenities and machines, which are used for all our operational processes. Our quality analysts check the product line on various quality tested parameters.

The guidance of our stalwart leader and mentor “**Mr. R. B. Yadav**”, has helped us in achieving a respectable status in the industry. His reliance on ethical practices and sound domain expertise have helped us in catering the clients satisfactorily.
